More Capital Needed For Development Work.

CAPT. PAUL MEANS BUSINESS

WHAT IS GOING ON IN THE CABLE CAVE DISTRICT.

Captain Adam M. Paul arrived in the city yesterday morning from Baker City, Ore., for the purpose of interesting foreign capital in the Imperial group of claims that he has been developing for the Eagle Mining company in the Cable Cove district about Valuable Discovery Reported in Wy

ten miles north of Sumpter.
"The property," said Captain Paul,
"is showing up well and it is our inment of the ore on the ground. I am in the city for the purpose of interesting foreign capital in the project, and I am confident that I will succeed. We have a big mine in the Imperial but it will take additional capital to make it what it ought to be. There are twenty claims in the group, all patented and in good shape. Over \$30,000 has been spent in development work. The water that causes trouble in all the mines in that country is under control in the Imperial.

"Lem Colbath, C. W. Nibley and the Crismons are the Salt Lake people interested in the mine. The E. & E. mine, the North Pole and the Columbia in this same district and Published Published this same district are all doing well and paying dividends. We intend to put in a \$10,000 mill as a starter and put in a \$10,000 mill as a started add to its capacity as the demands re-

The Century clean-up for the first balf of July will amount to \$8,000. Assistant Manager Victor R. Madsen arrived in the city from the mine yesterday, bringing with him a gold bar valued at \$3,000, a carload of concentrates that is expected to net \$2,000 and 1,000 pounds of high grade concentrates that are held to be worth \$3

. Madsen reports conditions at the mine to be better than ever. When the mill is in condition to run full time he is of the opinion that the output will be something good. Manager P. W. Madsen is now at the mine superin-tending the running of the mill until it will go without a hiter. On his return to the city a meeting of the di-rectors will be held, and it is expected that at that meeting the regular monthly dividend will be declared. He is expected home early in the week.

WHY THEY QUIT WORK.

Miners Refuse to Strip and be In-

spected. The Tuolumne county (California) miners' union has called a strike at the Jumper mine, near the village of Stent, because of what they consider an obnoxious order issued by the man-agement of that mine, says the Mining and Engineering Journal. For years the Jumper mine has been noted for Reached.

Stocks on the local mining exchange acted yesterday as if they had reached a point below which it was impossible for them to sink. Prices were at a standstill and few sales were recorded. The total value of the stocks transferred during both sessions amounted to less than \$3,000. Daly-West showed a tendency to fight every inch of the ground before going lower. 120 shares passed at a triffe under 317. All the other sales of the day acted yesterday as a change was made in mine methods, and now, for the most part, a zone of rock of considerable width, within which the gold specimens occur, has been mined and the entire rock mass sent to the surface to be crushed.

in the mill. Where rich gold specimens are found in a mine the temptation for miners to appropriate a portion of the gold is a strong one, and one to which, on occasion, some have been known to gold in the gold eld. In the past there has been so experience of this character at t umper, and it is presumable that rkings have again entered a r ust after coming off shift and befo assing from one apartment of thange house to another. The men delared this to be humiliating, and aft efusal on the part of the manageme rescind the objectionable ord truck July 3. The mine is closed a formen are idle. DENVER IN THE FIGHT. Prepares to Work Hard For Mining Congress.

(Special to The Herald.)

Fay, Nev., July 21.—This little town has had another one of its periodical excitements, and as a result three of the citizens were taken to Pioche today for preliminary examination before Justice Hartung on criminal charges arising out of the Shawmut-Nevada and Horseshoe mining troubles.

The manager and president of the Shawmut-Nevada Mining company, G. Pray Smith, was taken into custody for transferring to A. H. Norris under bill of sale, a dwelling erected by the Shawmut company on the Horseshoe property, in satisfaction of a debt owning to the considered for the con hamin, another influential citizen, have been chosen to present the claims of Denver on the floors of the congress. It is also asserted that Denver will go to the congress in force with flags flying and drums beating. NEWS OF THE DAY WAS LITTLE REGARDED.

New York, July 21.—There was marked hesitation and uncertainty in the tone of speculative sentiment today and neither the occasional advances nor the intervening reactions proceeded far on account of timidity of room trading element about following the movement. The sudden slump at the very close last night involved losses for some traders who overstayed their market on account of the deceptive appearance of strength up to that time, while a similarly delayed raily on the evening before left as the control of the deceptive appearance of strength up to that time, while a similarly delayed raily on the evening before left as the control of the deceptive appearance of strength up to that time, while a similarly delayed raily on the evening before left as the control of the deceptive appearance of strength up to the trade of the control of the deceptive appearance of strength up to the control of the deceptive appearance of strength up to the control of the deceptive appearance of strength up to the control of the deceptive appearance of strength up to the control of the co losses for some traders who overstayed their market on account of the deceptive appearance of strength up to that time, while a similarly delayed rally on the evening before left a warning for bearing traders which left them timid about putting out short lines. The consequence was a constant wavering of prices which gave the market a decidedly unstable appearance, but without developing any marked weakness on the reactions. The depressing influences reflected on the opening market, from London were vigorously resisted and Union Pacific's aggressive rise of a point reawakened some of the confidence felt in the promises that the stock was to touch par on the movement, but the heavy realizing which was encountered on this advance.

Metal Market.

New York; July 21 .- Owing, it is reported, to very light reserve stocks and an output hardly sufficient to supply current requirements, tin has recently, held firm, and today scored good advances, both at London and locally. Trading in the English market was said to be heavy at the higher prices, and the market closed at £123 for both spotand futures. Locally, the stort quotes

panied by news of the shipment of a million dollars in gold from Australia for San Francisco. Prices sold off to the lowest late in the day, but the closing was quiet and steady.

Bonds were heavy. Total sales par value, \$2,410,000. U. S. bonds unchanged on call.
